

# CRUSH Jig

HAVING A CRUSH JIG IS A VITAL ASSET WHEN USING THE DISCIPLINE OF ENERGY APPLICATION IN COLLISION RECONSTRUCTION !

- **CRUSH JIG** is the best way to measure a **CRUSH** profile.
- **CRUSH JIG** measures evidence for calculation of speed at impact.
- **CRUSH JIG** assures accurate & uniform measurement [by the inch] of **CRUSH** depths at specific intervals.
- **CRUSH JIG** presents demonstrative evidence of the crushing of a vehicle's profile induced by collision.
- **CRUSH JIG** allows for photographic evidence to show the depth of **CRUSH** in an exhibit that is easily understood by jurors.
