Forensic Mapping

Taught by Tim Lovett & staff

Class Equipment requirements:

- Laptop computer equipped with a wheel mouse and Installed CAD software
- Mapping Equipment such as a Total Station or Laser Device

CAD programs for instruction are Visual Statement, CAD Zone & ARAS

Data Collection instruction includes PocketZone, VS's M/FX, Sokkia and Nikon on-board

This course provides BASIC CAD instruction.

Tuition \$ 900.00

First 10 registrations get \$150.00 DISCOUNT

Thorough documentation of Crash and Crime scenes is paramount to the prosecution of cases. This course will enable investigators to utilize **Total Stations** or **Laser Devices** to create **Forensic Maps** for courtroom presentation.
